Welcome to International Seminar on

# Migration and Regional Economic Development

IN SEARCH OF NEW STORIES FOR RURAL URBANIZATION

29th OCTOBER 2019, FRAMI B (Watt&Edison ☺ 09-16), SEINÄJOKI | [www.muuttomoottori.fi](http://www.muuttomoottori.fi)

How domestic and international migrations relate to smart regional economic development in regions beyond major cities? Are there spatial alternatives to urbanization as 'savoir faire'? What are future development paths for strong and advanced communities outside of urban agglomerations and growth poles? How does the relation between the migration and regional economic development evolve? Join the discussion!

## Keynote speakers

### Høgni Kalsø Hansen

Associate Professor  
University of Copenhagen

*Høgni Kalsø Hansen is doing research within the area of urban economic dynamics focusing on the match/mismatch between industrial structures and skills along with human capital innovation and labour mobility.*

### Rhiannon Pugh

Post doctoral researcher  
Örebro University

*Rhiannon Pugh in doing research in the governance of regional economic development, especially in the context of weaker, post-industrial, uncompetitive, and peripheral regions. She is interested in how key theories and approaches in economic geography are translated into policy actions, and how relevant and tenable these dominant approaches are when considered in non-favourable regional settings.*

### Teemu Makkonen

Research director, PhD, Docent  
Spatia, University of Eastern Finland

*Teemu Makkonen works as Research Director in Spatia, Centre for Regional Research at the University of Eastern Finland. Spatia offers research and expertise services on regional development, planning and politics. In research Spatia's strengths are related to regional economic development and competitive ability, rural development and cross-border co-operations.*

### Ilari Karppi

Adjunct Professor  
Tampere University

*Ilari Karppi works at Faculty of Management and Business at TUNI. He has a long experience on regional studies and urban development research. He has also participated numerous development projects related to urban planning and development in addition to academic work.*
